

Can you see anything else in the pictures?  
Write down what you find in this table.

What you found	In picture	In square(s)

*Earth Observation (EO) scientists are detectives. We explore information about our planet to help care for the home we all share.*

Satellites looking down on the Earth took the pictures you see on the table.

- Can you work out what each picture shows?
- Can you spot the special object in each picture?

Find a picture of	Picture number	Where in this picture is there	Square number(s)*
a desert		an oasis	
a big river meeting the sea		a bridge with a gap in it	
a town with fields around it		an airport	
a river in a valley		a fire	
mountains in winter		a landslide	
a big city		a football stadium	
the countryside in spring		a motorway	
lots of small sandy islands		<b>two</b> boats and <b>no</b> land	
rainforest in the Amazon		a place where trees have been cut down	
mountains and sea		a wind farm	

\* If there is more than one of the thing, pick one square to write down.  
If the thing goes from one square to another, write down the start and end squares.
